## Counter-terrorism and Economy Poll

 02/06/2012Prepared on behalf of The Sun On Sunday

# Counter-terrorism and Economy Poll On behalf of The Sun On Sunday 02/06/13-1,007 respondents 

## Fieldwork Dates

30 ${ }^{\text {th }}$ May 2013

## Data Collection Method

The survey was conducted via online panel. Invitations to complete surveys were sent out to members of the panel. Differential response rates from different demographic groups were taken into account.

## Population Sampled

All adults aged 18+ England, Scotland and Wales.

## Sample Size

1,007

## Data Weighting

Data were weighted to the profile of all adults aged 18+. Data were weighted by gender, age, region and past vote. Targets for the weighted data were derived from Office of National Statistics data and the results of the 2010 General Election.

## Margin of Error

Because only a sample of the full population was interviewed, all results are subject to margin of error, meaning that not all differences are statistically significant. For example, in a question where $50 \%$ (the worst case scenario as far as margin of error is concerned) gave a particular answer, with a sample of 1,007 it is $95 \%$ certain that the 'true' value will fall within the range of $3.1 \%$ from the sample result. Subsamples from the cross-breaks will be subject to higher margin of error, conclusions drawn from crossbreaks with very small sub-samples should be treated with caution.

## Voting Intention

To determine voting intention we first ask respondents how likely they are to vote in a General Election on a scale of $0-10$. We then ask which party they are most likely to vote for, prompting for the Conservatives, Labour, Liberal Democrats and UKIP shown in a random order, and other parties displayed under "Another Party". Respondents in Scotland and Wales were also prompted for the SNP and Plaid Cymru respectively.

Final published figures for voting intention are calculated via a three step process which is shown in the data tables. Firstly the demographically weighted voting intention tables are further weighted by likelihood to vote, where those saying " 10 " are given a weighting of 1 , " 9 " given a weighting of 0.9 etc. down to those saying " 0 " given a weighting of 0 and hence excluded.

Those saying "undecided/don't know" and those refusing the question are then removed from the tables, and if they gave an indication of who they voted for in 2010 then are reinserted with that as their voting intention, but down-weighted by a factor of 0.3 . Final published voting intention figures can therefore be found in Table 11.

# Counter-terrorism and Economy Poll On behalf of The Sun On Sunday 02/06/13-1,007 respondents 

## Question presentation

All data tables shown in full below, in order and wording put to respondents, including but not limited to all tables relating to published data and all relevant tables preceding them. Tables for demographic questions might not be included but these should be clear from the cross-breaks on published tables.

In all questions where the responses are a list of parties, names or statements, these will typically have been displayed to respondents in a randomising order. The only questions which would not have had randomising responses would be those in which there was a natural order to maintain - e.g. a scale from "strongly agree" to "strongly disagree", a list of numbers from 0 to 10 or questions which had factual rather than opinion-related answers such as demographic information. "Other", "Don't know" and "Refused" responses are not randomised.

Not all questions will have necessarily been asked to all respondents - this is because they may be follow-on questions from previous questions or only appropriate to certain demographic groups. Lower response counts should make clear where this has occurred.

Data were analysed and weighted by Survation and presented by Patrick Briône and Damian Lyons Lowe.

Q12. What is your personal assessment of the level of terrorist threat facing the UK at present ?
Base : All Respondents

Unweighted Tota
Weighted Total
There is no signiticant
terrorist threat to the UK
There is a moderate terrorist
threat to the UK, but a maio threat to the UK, but a major terrorist attack o
of $7 / 7$ is unlikely
There is a serious terrorist threat to the UK and a major terrorist attack on the sc
of $7 / 7$ is a significant of $7 / 7$ is a a significa possibility
There is a very serious terrorist threat to the UK and major terrorist attacks as bad
or worse than 777 are or worse than $7 / 7$ are
inevitable Sigma

## Counter-terrorism and Economy Poll <br> Prepared on behalf of the Sun on Sunday

Assuming that these cuts are going to be made, which government departments do you think should be cut the most and which should be protected?
Please rank from the areas you think should be cut most at the top and areas you think should be cut least at the bottom
Base : All Respondents

Unweighted Total
Weighted Total
Overseas Aid (money to
developing countries)
Welfare (including pensions
and other benefits)
and other benefits)
Justice (courts and leg system
Defence (armed forces)

## Transport (infrastructure and

 public transport)Local government (funding to
councils for local services) Home Office (e.g. policing) Health (NHS)

Education (schools)
Sigma

## Counter-terrorism and Economy Poll <br> Prepared on behalf of the Sun on Sunday

Q24. Rank 1/2/3 Summary Tab
Assuming that these cuts are going to be made, which government departments do you think should be cut the most and which should be protected?

Assuming that these cuts are going to be made, which government departments do you think should be cut the most and which should be protected? Please rank from the areas you think should be cut most at the top and areas you think should be cut least at the bottom
Base : All Respondents

Unweighted Total
Weighted Total
Overseas Aid (money to
developing countries)
developing countries)
Justice (courts and legal
system)
system)
Transport (infrastructure and
public transport) public transpor
Local government funding to
Home Office (es policis

Welfare (including pensions
and other benefits) Welfare (incluading
Defence (armed forces)
Education (schools)
Health (NHS
Sigma

Assuming that these cuts are going to be made, which government departments do you think should be cut the most and which should be protected?
Please rank from the areas you think should be cut most at the top and areas you think should be cut least at the bottom
Base : All Respondents

Unweighted Total
Weighted Total
Heath (NHS)
Education (schools)
Defence (armed forces)
Welfare (including pensions
and other benefits)
Local government (funding to
councils for local sevvices)
councils for local services)
Transport (infrastructure and
public transport)
Justice (courts and legal
system) system)
Overseas Aid (money to
developing countries)
developing countries)
